About the conference

The International Conference on AI-Driven Solutions in Management: Flexibility, Digitalisation & Decarbonization is jointly organised by the Indian Institute of Management Sambalpur and the GLOGIFT Society - Global Institute of Flexible Systems Management - at IIM Sambalpur, Odisha, from 25 to 27 February 2027.

The theme joins three forces reshaping management at once. Flexibility is the capacity of organisations to absorb shocks and reconfigure quickly. Digitalisation is the movement of intelligence into the operating core of the firm. Decarbonization is the obligation now shaping investment, supply chains and public policy alike.

GLOGIFT 2027 asks how artificial intelligence connects the three - whether AI-enabled management systems can make enterprises more flexible and more sustainable at the same time. It brings together academicians, researchers, practitioners, policymakers, entrepreneurs and students across ten tracks.

Objectives

- Advance AI-driven management research.
- Bridge academia and industry.
- Accelerate decarbonisation and sustainability.
- Shape responsible AI governance.
- Publish and disseminate scholarship.

How to take part

Stage 1 - Abstract (mandatory). Submit a 500-word abstract under the most relevant track, and state your intended Stage 2 pathway.

Pathway A - Abstract & Presentation. Present an accepted abstract without a full paper.

Pathway B - Abstract, Full Paper & Presentation. Prepare a double-anonymous manuscript using the published Full Paper Submission Guidelines, Author Details Worksheet and Blinded Manuscript Template.

Choosing Pathway B keeps you in the Pathway A (abstract) phase until your abstract is accepted. Even after acceptance, the corresponding author may still return to Pathway A and present on the accepted abstract, or continue to submit the full manuscript under Pathway B.

Abstracts are reviewed by the Track Editor, who may seek reviewers or decide directly; Pathway B full papers undergo double-blind peer review. Authors are notified of acceptance, rejection or revisions, with feedback. If a Pathway B full paper is not accepted, you may still register, attend and present on the strength of the accepted abstract.
